

Eligibility accuracy at the speed your caseload now demands.

Identity, residency, citizenship, income, hours, assets, and existing coverage — verified in real time, case by case. Those results inform a risk score with the factors and sources behind it. The determination stays with you.

2×

THE ELIGIBILITY WORK

Six-month renewals for expansion adults start January 1, 2027.

Oct 1

NARROWER RULES, IN EFFECT

Immigrant-eligibility limits took effect October 1, 2026; work and address checks follow in 2027.

1 week

TO FIRST FINDINGS

Initial results on a sample of your own cases within about a week.

HOW CASEVUE WORKS

Verify. Score. Explain. Decide.

- 1 **Intake**
Case data arrives by secure transfer under a data agreement your agency controls.
- 2 **Verify**
Each case is checked in real time against authorized sources. Every check returns verified, discrepant, or missing.
- 3 **Score**
The verification results inform a risk score for every case, with the factors and sources attached.
- 4 **Decide**
Staff act on a prioritized, documented picture. The determination stays with the agency.

Built by people who have worked in government and understand the process — relied on inside state programs for more than thirty years.

THE DEMONSTRATION

A sample of your own cases, first findings in a week.

You choose the population — Medicaid or SNAP. We agree data, scope, and schedule before anything moves. Fixed fee.

You receive

- A scored assessment for every record, with factors and sources
- A findings report: discrepancies, gaps, differences from current determinations
- Where manual review can be reduced
- A working session with your eligibility and program-integrity staff

No system replacement. CaseVue informs; it never decides.

WHAT WE VERIFY — IN REAL TIME, EVERY CASE

Identity and date of death · Residency, address, enrollment in another state · Citizenship or immigration status, household, exemption status · Income, employment, work hours, assets where required · Existing coverage — insurance, Medicare, other Medicaid, third-party liability. Every check returns verified, discrepant, or missing; repeated at renewal and whenever a source changes.

Ready to see it on your own cases? Contact us to schedule a demonstration.
