

Create more equitable payment outcomes with CoverMe Patient Balance Financing

Americans spend a significant amount of money each year on healthcare. While many patients may have some type of healthcare coverage, many of these plans have unreasonably high deductibles and out of pocket costs. This means many patients are unable to pay for their healthcare services. **CoverMe Patient Balance Financing** helps patients by offering flexible payment options. This will help give patients peace of mind and help medical providers by increasing cash and reducing bad debt.

Easy Pre-Approval Process

Interest-free, low-interest and line of credit options - all available for pre-approval to reduce the pressure of uncertain medical bills.

Effective Programs

Flexible recourse and non-recourse programs for providers to streamline payment collections and improve patient confidence.

Customized Plans

Full-suite of customized financial plans to help you meet your ROI objectives and ensure financial coverage for patients.

A more positive healthcare journey for all

CoverMe's data-driven approach leads to faster pre-approvals and allows patients to focus on healing, not worrying about how to pay for medical care.

CoverMe Patient Balance Financing will:

- ✓ Calculate an approximate monthly payment appropriate to each unique financial situation
- ✓ Confirm with patients their ability to pay
- ✓ Follow up with automated electronic billing, phone calls and text messages to encourage complete balance payments
- ✓ Greatly reduce your time spend chasing payments

Give your patients more control of their medical payments and develop a transparent plan that's fair for all with CoverMe Patient Balance Financing.
