

# The pathway to payment starts with CoverMe Financial Assistance Solutions

Every patient deserves an opportunity to pay for healthcare services - and every medical provider deserves to face fewer bad debts. **CoverMe's** Financial Assistance solutions automate providers' in-house charitable programs and policies to find the most optimal program choice for uninsured and underinsured patients, creating a better experience and a reduction in bad debt.

## How CoverMe works

Our automated software streamlines your process and is designed to meet the unique needs of your financial assistance program.

**1** Program your Financial Assistance policy into our solution, including custom interview questions and flows.

**2** Screen each patient and verify information automatically.

**3** CoverMe identifies the most optional program for the patient and automatically completes the appropriate paperwork.

## Trust CoverMe's solutions to deliver:

Automated financial assistance

Early risk evaluation

Patient interview insights

Empathetic counseling

## The score tells the story.

**CoverMe** offers complete insight into your patients' financial situation. Our program will review and validate income and assets, producing an easy to understand fit, risk and reliability score for each patient. This proprietary scoring model assesses the patient's willingness and ability to pay healthcare-related financial obligations.

## Objective, accurate, and engineered to help your patients.

- ✓ Identify more funding sources to improve your patients' ability to pay healthcare related expenses.
- ✓ Classify patient accounts accurately based on their unique financial situation.
- ✓ Determine presumptive charity using **CoverMe's** objective charity assistance solutions.

Streamline your Financial Assistance & Charity programs with **CoverMe's** suite of web-based tools for identifying the optimal ways for your patients to pay.
